

**Standard for clean air**

Standard for clean air - according to our company slogan we design and produce high quality filter and extraction systems for virtually all industrial sectors. Thus, we ensure clean air at the workplace for the safety of human and environment.

Our goal is to continuously build on our success story and we therefore rely on innovative products as well as committed and customer-oriented employees (m/f/d). We are recruiting qualified and committed

## **Students (m/f/d) with a technically oriented course of study**

for our North American subsidiary in **Fort Mill, South Carolina**, who intend to complete their internship semester in the **USA**.

### **Your tasks**

- technical sales and engineering
- design and service department

### **Your profile**

- technically oriented course of studies
- flexibility
- readiness to perform
- independent as well as team-oriented work
- good written and spoken English
- computer skills (MS Office, possibly CAD)
- ideally some practical work experience

We provide a comprehensive on-site training and support, where you will be backed up by a young team. You are ideally prepared for the wide range of tasks if you are willing and able to translate your basic theoretical knowledge into practical solutions.

Working independently and in a team, coupled with a good command of written and spoken English, is a matter of course for you. Interested in this challenge? Then send your application to our HR department, preferably by e-mail to **bewerbung@keller-lufttechnik.de**.

Further information can be found on our homepage **www.keller-lufttechnik.de** and on the Keller USA homepage **www.kellerusa.com**. Moreover, Ms. Bernecker, telephone 07021 574-168, will be pleased to provide you with information.

**We look forward to getting to know you!**
